

Jewoola Favour

Experienced software developer focused on building accessible digital experiences

Relevant Experience

Cephas ICT Hub

Junior Software Developer Jan 2023 - Present

Apprentice Mobile Developer April 2022 - December 2022

- Delivered robust, production-ready mobile applications using React Native for platforms such as HonourWorld and ScreenClass, ensuring smooth cross-platform performance.
- Designed and developed scalable web applications using React, with a focus on clean UI, accessibility, and user experience.
- Built and maintained RESTful APIs and backend services using Node.js, Express, and MongoDB, supporting authentication, real-time updates, and data persistence.
- Facilitated workshops and hands-on training sessions for professionals and students, promoting best practices in mobile development and empowering new developers.

Versecog Farm Enterprise

Freelance Mobile App Developer Nov 2023 - January 2024

- Collaborated directly with the client to gather requirements and translate their vision into functional mobile app features.
- Developed key application screens using React Native, ensuring responsiveness and alignment with design specifications.
- Incorporated iterative feedback to refine user interface and functionality, contributing to a seamless user experience.

StudyPadi

Software Developer March 2024 - Present

- Led the end-to-end development of the StudyPadi mobile app, a learning platform serving over 1,000+ active students at LAUTECH and BOWEN.
- Designed and implemented intuitive user interfaces for both mobile, web and backend, ensuring cross-platform compatibility and a smooth user experience.
- Developed key features such as CBT practice, past question access, and a real-time leaderboard, enhancing academic engagement and preparation.

Educational Background

Bachelor of Science in Computer Science.

Ladoke Akintola University of Technology.

June 2021 - August 2025
